

HAMZA NAEEM

Aspiring SOC Analyst | Cybersecurity Enthusiast

Lahore, Pakistan | +92 318 0461846 | hamzanaeem123098785@gmail.com | [LinkedIn](#) | [TryHackMe Profile](#)

PROFESSIONAL SUMMARY

Motivated BS Information Technology student building a strong foundation in cybersecurity through hands-on practice and structured coursework. Completed the TryHackMe Pre Security path (Top 25%, Level 6) and actively progressing through Cybersecurity 101, with practical exposure to network scanning, packet analysis, Linux administration, and common web vulnerabilities (OWASP Top 10). Seeking an entry-level SOC Analyst or cybersecurity role to apply technical skills, sharp problem-solving, and a fast-learning mindset in a real-world security environment.

TECHNICAL SKILLS

Security Tools: Nmap, Wireshark

Operating Systems: Linux, Windows Server

Networking: TCP/IP, Subnetting, Network Fundamentals

Programming: Python

Concepts: OWASP Top 10, Network Security, Cryptography, Operating System Security

CERTIFICATIONS & TRAINING

- **Cisco Introduction to Cybersecurity** — Cisco Networking Academy
- **TryHackMe — Pre Security Path** — Completed (Rank: Top 25%, Level 6)
- **TryHackMe — Cybersecurity 101 Path** — In Progress (20% complete)

HANDS-ON PRACTICE

- **Nmap** — Practiced host discovery, port scanning, and service/version enumeration techniques used in reconnaissance.
- **Wireshark** — Captured and analyzed network traffic to identify protocols, packet structure, and anomalies.
- **Linux Fundamentals** — Built command-line proficiency in file systems, permissions, and process management.
- **OWASP Top 10** — Studied and explored common web application vulnerabilities including injection, broken authentication, and XSS.

EDUCATION

BS Information Technology

University of the Punjab, Lahore | Expected Graduation: 2028

Relevant Coursework: Network Security, Cryptography, Operating Systems, Programming Fundamentals

EXTRACURRICULAR ACTIVITIES

- Active member of a university Coding Club — collaborating on programming exercises and peer learning.
